Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/25/05 has been entered.

Response to Amendment

The amendment received 4/25/05 has been entered in full. Currently claims 1-5, 10-24, and 26-31 are pending in the application.

Applicant's arguments, see pages 15-27, filed 4/25/05, with respect to the pending claims have been fully considered and are persuasive. The rejection of the pending claims has been withdrawn.

Reasons for Allowance

Claims 1-5, 10-24, and 26-31 are allowed.

The following is an examiner's statement of reasons for allowance: As discussed in the Applicant's arguments (4/25/05, pgs 15-27) none of the prior art disclose in combination with the other limitations of the claim, a method for monitoring fabrication processes of structured surfaces in a semiconductor production comprising generating reference signatures by measuring an intensity distribution of images varying a wavelength and polarization of electromagnetic radiation, the polarization being varied by a rotation apparatus, providing at least one of a neural network and a fuzzy logic and

adjusting the weighting as a function of the reference signature, comparing the measured signature with the reference signatures and depending on the similarity of the signatures classifying the parameters or measuring individual structures for providing absolute quantities of the structure with high resolution and then classifying the parameters. Thus claim 1 is allowable over the prior art. Claims 2-5, and 10-19 are dependent on claim 1 and thus are allowable for the same reason. Claim 20 has similar limitations to claim 1 thus is allowable for the same reasons. Claims 21-24, and 26-31 are dependent on claim 20 thus are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
